

Shipping Dangerous Goods is our Specialty

We are truly the experts when it comes to custom packaging and crating, fragile, large, items including Dangerous Goods, Electronics', lithium batteries, computers, artworks and antiques.

We specialize in providing the right type of packaging for any item to protect your shipment.

Give us your small, fragile packages. Or you're big, heavy awkwardly shaped ones. When you take your items to pack and ship, we'll put over 30 years of experience to work for you, packing and shipping them perfectly. And when it's too big for a standard box, we offer custom crating services to build the perfect box around it. We do whatever it takes to make sure your shipment gets to where it's going in the same condition you left it in with us. What else would you expect from your expert shipping store?

You don't need to shop around for the best way to send your package because Pack and Ship are your one-stop shop. We ship with partners including Purolator, FedEx, UPS, DHL and Air Canada. Rest assured we'll find the best solution for you.

PLACARDS AND LABEL SERVICES

Pack It...Ship It...We are here to help you with our expertise...

We have specialized in preparing, packing and shipping dangerous goods since 1985. We are a second generation family business. We have been a leader in providing consulting and / or the complete packaging service needs to untrained individuals.

Members of the freight forwarding and manufacturing sectors call on our expertise in this field. With the constantly changing transportation of dangerous goods regulations, our TDG, IATA and IMDG consultants are kept updated regularly by CIFFA Canadian Freight Forwarder Association.

Our industry reputation is that we know dangerous goods regulations. Our knowledge comes from 30 years of practical experience dealing directly with dangerous goods and liaising with airlines, steamship lines, and freight forwarders. This experience allows us to anticipate potential problems, and provides insight into how to get your freight to its destination without delays.

Saving costs associated with DGP shipping add up quickly – training your staff, packaging, labeling, stocking inventory and keeping up to date on the ever changing regulations, as well as costs associated with delayed and rejected shipments.

DGP not only classifies, packs, and documents dangerous goods in accordance with applicable regulations but, also assumes all relevant legal liability thereof. DGP carries comprehensive liability insurance policies which allow DGP to be shown as the shipper on behalf of the actual shipper on the shipper's declaration for dangerous goods..
